

QUALITY POLICY STATEMENT

Australian Rail Technology Pty Ltd is committed to Quality Assurance and the implementation and maintenance of an Integrated Management System, which will allow us to maximise our efficiency and productivity to meet the company's goals and objectives of customer satisfaction, employee satisfaction and profitability. We will employ Lean Management Principles to foster sustainable business growth through a Continuous Improvement culture.

To achieve these goals, the company will maintain and continually develop our Integrated Management System in accordance with AS/NZS ISO 9001:2008 which will be applied to the processes and policies we follow in order to provide products and services to our customers. Our Integrated Management System incorporates Quality, Work Health and Safety (AS4801:2001) as well as Environmental Management (ISO14001:2004).

Our Integrated Management System is the assurance to our customers that Australian Rail Technology Pty Ltd will conduct our business with due regard to contractual, legal and regulatory requirements, providing services that consistently meet the needs and expectations of our customers. We employ risk management and risk reduction practices to all our activities.

We believe that the provision of quality based products and services will provide the cornerstone for future competitive advantage, enhance our reputation and promote our long term success, thus providing a stable base for ongoing customer and employee satisfaction.

All management, staff and subcontractors are informed of this quality policy and of their responsibility to comply with the requirements of our Integrated Management System.
