

**Features:**

- Rechargeable battery and charger socket
- Front panel LED for battery health indication
- Accurate measurements

### Application

Filter to assist in the measurement of audio frequencies used in track circuits. Plugs into a standard digital multimeter and has selectable frequency ranges and voltage levels. The unit also allows battery voltage measurement direct to the multimeter.

### Technical Data

Description	Unit	Value
Filter Frequencies	KHz	BB, 1.7, 2, 2.3 & 2.6
Ranges	V	2, 20

Description	Unit	Value
Polycarbonate enclosure	mm	67 W x 130 H x 42 D
Inputs		4mm Sockets
Outputs		Loops input via 4mm sockets
Battery Measure		Selectable via function control
Rechargeable batteries		Charger supplied

### Part Number

The part number is XP3505 1000
