

Features:

- Repeatable high precision
- High quality connectors
- Easy functional operation
- Optional rail clips

Application

The Track Shunt Tester is used in signalling applications to test and adjust signalling track circuits. Rail Clips are fitted the terminals so that they can be attached to the head of the rail. Shunt resistance can be set from 0 to 2.9 Ohms using two links. A further link is provided for open circuit (disconnect link).

Technical Data

Description	Unit	Value
Resistor rating	W	3
Resistor type	-	Non-inductive
Resistor Range	Ω	0 - 2.9
Resistor range steps		Open circuit - Disconnect link
Bottom row	Ω	0, 0.05, 0.1, 0.15, 0.2, 0.25, 0.3, 0.35, 0.4, 0.5, 0.6, 0.7, 0.8 & 0.9
Top Row	Ω	0, 1.0 & 2.0

Part Number

The part number is XP3515 – 1000
